

Orienteering Course Direction Sheet (note: distances are close approximates)

T₁ = starting point

___ : go straight 160 feet at 322°

___ : go straight 125 feet at 288°

___ : go straight 152 feet at 220°

___ : go straight 171 feet at 258°

___ : go straight 100 feet at 240°

___ : go straight 112 feet at 284°

___ : go along the path for 65 feet then turn right and go straight 21 feet; the point is at 40° from the previous point

___ : go straight 144 feet at 330°

___ : go along the path for 207 feet at 300° (look to your right for this one)

___ : go along the path 100 feet then turn right and go straight 72 feet; the point is at 332° from the previous point

___ : go straight 121 feet at 262°

___ : go along the path 138 feet at 358°

___ : go along the path 156 feet at 60°

___ : go straight 236 feet at 58°

___ : go straight 81 feet at 82°

___ : go straight 140 feet at 40°

___ : go straight 135 feet at 90°

___ : go straight 115 feet at 178°

___ : go along the path 275 feet at 156°

___ : go straight 165 feet at 134°

___ : go straight 200 feet at 128°

___ : go along the path 165 feet then turn left and go straight 73 feet; the point is at 50° from the previous point

___ : go straight 161 feet at 140°

___ : go straight 146 feet at 126°

___ : go along the path 272 feet at 188°

Clues (clues to find the point after the one listed)

A1 – A river's ahead. From this point, look between 2 trees of a group of 3 and you'll see the tree with the next point.

A2 – A magnolia tree's leaves smell good when they are crushed. These leaves are also close to the next point!

E1 – Maybe you should look back from time to time, if you want to find the next point...

E2 – Pass some Cat Briar and then look near a large Slash Pine to find the next point!

E3 – The next point is by a water tower, a garden, and a field!

F1 – The next point is behind a common Florida plant: the Palmetto!

G1 – Looking up may be good for the next one, too!

H1 – At the fork ahead, go between the tines!

I1 – If you look up to the left, you'll see an ENORMOUS freestanding beehive in a tree.

K1 – Good job so far! Don't wander too far for the next point.

N1 – Go to the beginning of the far railing on the bridge to start the next point.

N2 – Good job finding this point, too! The next one's just above a natural bend!

N3 – One More! Two mirrors are near it!

O1 – Take a rest and lean back and you may find the next point...

R1 – A large oak and a grapefruit tree are close to the next point.

R2 – Before going to the next point you should take a look at the gorgeous lake!

R3 – Ask the turtles to help you find the next point! 😊

S1 – An unnatural water source is near your next point.

S2 – A sea of green is near your next goal.

S3 – The next one's somewhere off the trail before the boardwalk... Find it!

S4 – Good job! Reward yourself by looking at some of the animal exhibits!

T1 – Caution: Signs ahead!

T2 – Look around one bend and on another to find the maple which you seek!

U1 – Why not take a rest at the next point and take a look at an older eagle project, the Bat House?

V1 – I hope the next point doesn't stump you!

V2 – Enjoy the boardwalk while you try to find the next one!
