

Playing a Game

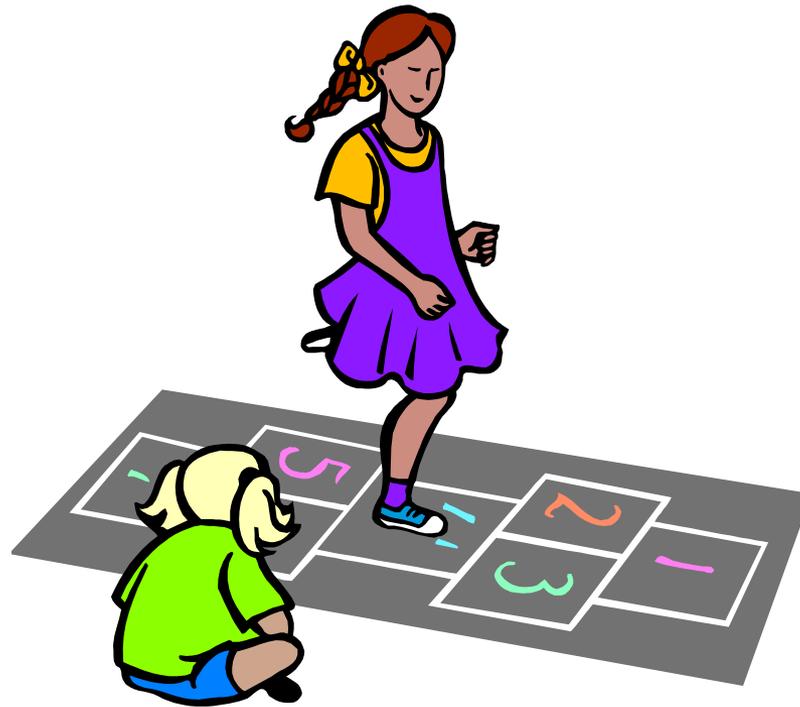

Playing games are fun. There are all sorts of games. Sometimes you play board games when you move a token around a board.

**Sometimes you play chase games.
Games with balls are fun.
A lot of kids like to play video games.**

When I play a game with my friends, it's important to know the rules before we start.

**When we are ready, we should decide who will go first.
Then take turns.**

When you play a game with someone or are on a team, someone will be the winner of the game. I will not always win at a game. It is O.K.
